

EASY WIPE ON APPLICATION

■ **Usages:** Recommended for use on all interior wood surfaces - including paneling, woodwork, hardwood floors, wood furniture, window frames....

■ **Preparing Your Surfaces:** Apply only to bare or newly stained woods. Remove any old finishes, wax, grease or polishes. Wood should be sanded smooth following the wood grain direction ending with fine #120 grit sandpaper, for floors end with #150 grit. Remove all sand dust.

This step is essential to obtain good results!

■ **Application:** Shake thoroughly to evenly mix the color pigments in the oil. The finish will have a slight amber color, and should be tested in an inconspicuous area to determine the desired color and final effect. Simply wipe it on with a soft cloth or cotton blend. Allow to penetrate 5-10 minutes. Wipe off any excess. Allow to dry 6-8 hours.

NEVER LET A COAT DRY WITHOUT REMOVING THE EXCESS OR POLISHING THE SURFACE.

The application of a varnish is not needed, however, if a higher sheen is required, SamaN waterbased varnish can be applied after 7 days.

■ **V.O.C.** 7g/L

■ **Coverage:** One quart (1L) covers up to 300 sq. ft. (28m²) depending upon wood porosity. Do not thin.

■ **Storage:** Store at room temperature

■ **Cleanup and Disposal:** Clean brushes and equipment with SamaN Oil and Wax Remover.

ONE AND DONE

No Top Protection Required
Apply one stain coat and you are finished!
