

# Safety Data Sheet

## Graffiti

### 1. Identification

**Product identifier:** Graffiti  
**Product code:** SSG-000  
**Supplier Name:** SamaN  
660 Rue du Filtre  
Victoriaville, Québec  
G6T 0T6  
**Telephone:** 819 751-2350  
**Emergency telephone number:** 819-751-2350  
**Available hours:** 8h-17h

**Recommended use:** Clears traces of graffiti, permanent markers and hair dye.  
**Restrictions on use:** For domestic use only

### 2. Hazard identification

**Hazard classification:** DANGER

**Product classification:**

Serious eye damage-Category 1.

**Hazard statement(s):** Causes serious eye damage.

#### Precautionary statement(s)

**Prevention:** Wear protective gloves, protective clothing, eye and face protection.

**Response:** IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing. Immediately call a POISON CENTER or a doctor.

# Safety Data Sheet

## Graffiti

**Disposal:** Not applicable.

**Storage:** Dispose of contents/container in accordance with local, regional, national and/or international regulations in force.

**Other hazards:** Moderately toxic by intravenous, intraperitoneal route and subcutaneous routes.

See toxicological information, section 11

### 3. Composition/Information on ingredients

No	CAS no	Common name and synonyms	Concentration (W/W)
1	78330-20-8	Alcohols, branched (C9-C11), (C10) rich ethoxylate	29.25%
2	79-20-9	Methyl acetate	5.00%
3	174955-61-4	Fatty alcohol ethoxylate/propoxylated	4.87%

### 4. First-aid measures

**If swallowed, irritation, any type of overexposure or symptoms of overexposure occur during use of the product or persists after use, immediately contact a POISON CENTER, an EMERGENCY ROOM or a PHYSICIAN; ensure that the product safety data sheet is available.**

**Eye contact:** Check for and remove any contact lenses. Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately.

**Skin contact:** In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse. Get medical attention immediately.

**Inhalation:** Move exposed person to fresh air. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Loosen tight clothing such as a collar, tie, belt or waistband. Get medical attention immediately.

**Ingestion:** Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an

# Safety Data Sheet

## Graffiti

unconscious person. Get medical attention immediately.

**Symptoms:** Eyes burn sensation which is manifested by tearing, and/or conjunctivitis. Cough, breathing pain, eye redness and skin edema.

**Effects (acute or delayed):** Possibility of permanent damage to the cornea. May cause skin irritation.

**Immediate medical attention and special treatment:** No specific treatment. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

## 5. Fire-fighting measures

**Suitable extinguishing media:** Use dry chemical, CO<sub>2</sub>, water spray (fog) or foam.

**Unsuitable extinguishing media:** Jets of water can facilitate the spread of fire.

**Specific hazards arising from the hazardous product:** No specific hazard.

**Hazardous combustion products:** Carbon monoxide and dioxide.

**Special protective equipment and precautions for fire-fighters:** Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

# Safety Data Sheet

## Graffiti

### 6. Accidental release measures

**Personal precautions:** No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment (see Section 8).

**Protective equipment and emergency procedures:** Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

**Methods and materials for containment and cleaning up:** Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Use spark-proof tools and explosionproof equipment. Dispose of via a licensed waste disposal contractor.

### 7. Handling and storage

**Precautions for safe handling:** Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. Avoid exposure - obtain special instructions before use. Avoid contact with eyes, skin and clothing. Do not ingest. Avoid breathing vapor or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

**Conditions for safe storage:** Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

**Incompatibility:** Strong acids and bases. Strong oxidizing agents. Finely divided metals (Ba, Be, Na, P, Al, Mg etc).

### 8. Exposure controls/Personal protection

No	CAS no	CAS name	IDHL mg/m3	TWA mg/m3	STEL mg/m3	CEIL mg/m3
1	78330-20-8	Alcohols, branched (C9-C11), (C10) rich ethoxylate	Not available	Not available	Not available	Not available
2	79-20-9	Methyl acetate	3100	606	757	Not available
3	174955-61-4	Fatty alcohol ethoxylate/propoxylated	Not available	Not available	Not available	Not available

IDHL: Immediately Dangerous to Life or Health Concentrations

TWA : Time Weighted Average

STEL: Short -Term Exposure Limit

CEIL: Ceiling Limit

IPVS = Inmediatamente peligroso para la vida o la salud

VEPP = Valor de exposición promedio ponderado

VECD = valor de exposición de corta duración

VL = valor límite

**Appropriate engineering controls:** Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.

**Individual protection measures:** Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Eyes:** DO NOT WEAR CONTACT LENSES Wear anti-splash safety goggles.

**Hands:** Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties.

**Respiratory:** If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

**Others:** Wear protective clothing with long sleeves and appropriate safety shoes at all times.

## 9. Physical and chemical properties

**Physical state:** Liquid

**Colour:** Green

**Odour:** Low odor

**Odour threshold:** Not applicable

**pH:** 5,6

**Melting/Freezing point:** 0°C (32°F)

**Initial boiling point/boiling range:** 100°C (212°F)

**Flash point:** Not applicable

**Lower flammable/explosive limit:** Not applicable

**Upper flammable/explosive limit:** Not applicable

**Auto-ignition temperature:** Not applicable

**Evaporation rate:** 0,04 (ether=1)

**Vapour pressure:** 16,9 mm Hg at 20 °C

**Vapour density:** < 1 (air =1)

**Relative density:** 1,011 kg/L à 20 °C (water = 1)

**Solubility in water:** Miscible

**Partition coefficient - n-octanol/water:** Not available

**Decomposition temperature:** Not available

**Kinematic viscosity:** 7,7 mm<sup>2</sup>/s (à 40 °C)

## 10. Stability and reactivity

**Reactivity:** Stable under recommended conditions of storage and handling.

**Chemical stability:** The product is chemically stable under normal conditions of use.

**Possibility of hazardous reactions:** No dangerous or polymerization reactions will not occur under normal conditions of use.

**Conditions to avoid:** Do not pierce or burn, even after use.

**Incompatible materials:** None known.

**Hazardous decomposition products:** Carbon monoxide and dioxide.

**Cancer classification under IARC (International Agency for Research on Cancer)**

# Safety Data Sheet

## Graffiti

- Group 1: carcinogenic to humans.
- Group 2A: probably carcinogenic to humans.
- Group 2B: possibly carcinogenic to humans.
- Group 3: not classifiable as to its carcinogenicity to humans.
- Group 4: probably not carcinogenic to humans.

### Cancer classification under ACGIH (American Conference of Governmental Industrial Hygienists)

- Group A1: confirmed human carcinogen.
- Group A2: suspected human carcinogen.
- Group A3: confirmed animal carcinogen with unknown relevance to humans.
- Group A4: not classifiable as a human carcinogen.
- Group A5: not suspected as a human carcinogen.

## 12. Ecological information

No	CAS no	CAS name	%	Persistent	Bio-accumulation	Aquatic ecotoxicity

1	78330-20-8	Alcohols, branched (C9-C11), (C10) rich ethoxylate	29.25	Very toxic to aquatic life.	Not available.	No known adverse effect to the environment.
2	79-20-9	Methyl acetate	5.00	No known adverse effect to aquatic life.	No known adverse effect to aquatic life.	No known adverse effect to the environment.
3	174955-61-4	Fatty alcohol ethoxylate/propoxylated	4.87	No known adverse effect to aquatic life.	No known adverse effect to aquatic life.	No known adverse effect to the environment.

## 13. Disposal considerations

# Safety Data Sheet

## Graffiti

**Methods of disposal:** The generation of waste should be avoided or minimized wherever possible. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.
