Product Features:

IN ONE EASY STEP, renew existing grout with an attractive and durable coating.

No need for scrubbing or expensive re-grouting. Perfect for changing the color of grout line. Use it to cover stains and restore the original look of tile surfaces. Instantly, grout lines become clean & bright. Formulated with an antimicrobial agent to protect the sealer from microbial growth and staining. Break the mold cycle by forming a physical barrier that resists mildew stains.

Applications: Ideal for use in bathrooms, kitchens and laundry rooms.

Directions:

- Lightly wash the surface to be protected removing grease, soap and oil.
- Allow the surface to dry completely and then apply.
- Remove cap and press tip a few times to get coating to flow.
- Test product in an inconspicuous area to determine suitability for intended use.
- If stain gets on tile, wipe off immediately with wet moist paper towel.
- After 2 minutes stain begins to get tacky and more difficult to remove.
- If flow decreases during use, repeat step 3.
- Allow to dry for 4 hours.
- Allow to cure 8 hours before immersing in water

VOC: 198g/L

Tiles	Coverage
12x12"	50-100 sq.ft
6x6"	12-25 sq.ft
4x4"	6-12 sq.ft

* Depending on the grout width

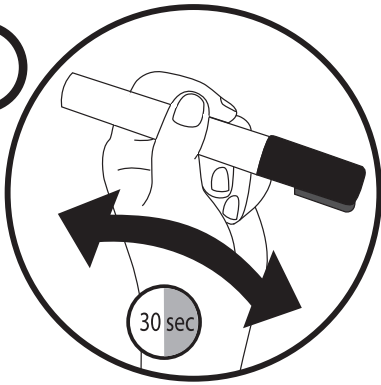

9ml
0.3oz

Made in / Printed in
Canada

Ideal for use in bathrooms, kitchens and laundry rooms.

Tips and Tricks

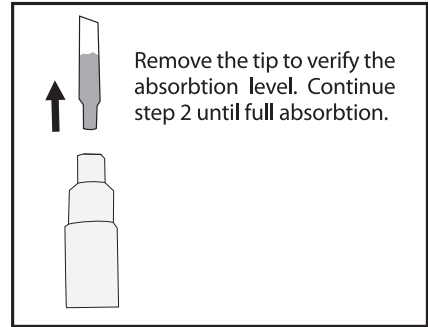

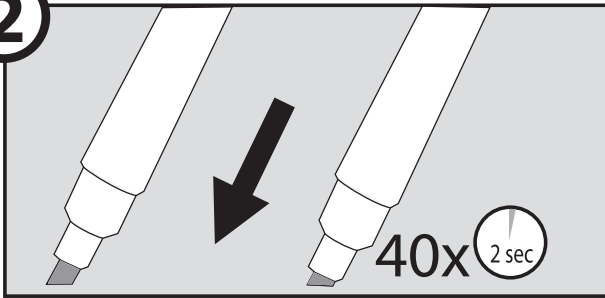

1

Shake with cap on for 30 seconds or until you hear the mixing ball.

Remove cap and press tip 40 times (holding it down for 2 seconds each time) to get coating to flow.

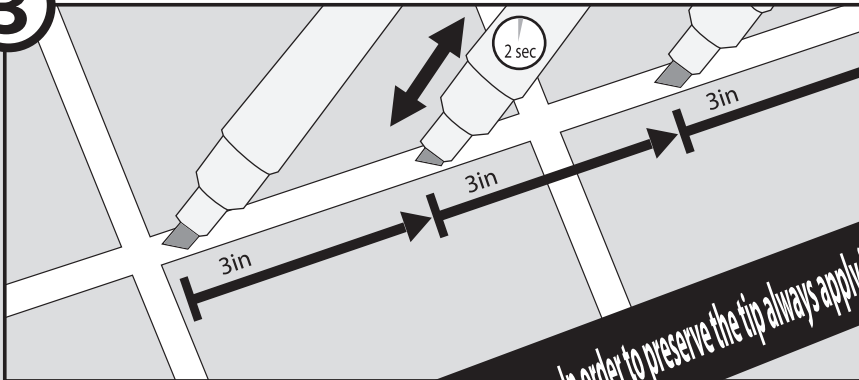

2

For a perfect finish, apply roughly on a 12 inch surface and pass again thereafter to standardize.

After having carried out a section of 12 inches, wipe with a wet linen any overflow because after 2 minutes product will have already hardened.

3

In order to preserve the tip always apply in the same direction.
