

TECHNICAL DATA SHEET

SAMAN CONCRETE PREPARATION UCP

DESCRIPTION

Saman Concrete Preparation will clean and etch the concrete substrate which allows coatings to properly adhere to the surface. It will remove efflorescence, grease, oil, rust, etc.

PRODUCT SPECIFICATIONS

Appearance: clear liquid

Odor: odorless

pH : ~1

Density: 1.16 kg/l

Coverage: 300-400 sq. ft/gal.

VOC: 0

Recommended applicators: sponge roller (5-6 mm)

Clean up: Clean applicator and equipment with water.

Storage: Store in a cool, dry place. Do not transfer content to unlabeled bottles or other containers. Do not reuse empty bottle. KEEP OUT OF REACH OF CHILDREN.

Shelf life: at least 1 year in a well closed container.

APPLICATION

Surface preparation

1. New concrete must cure for a minimum of 30 days
2. Scrape and sweep away dirt and loose contaminants on the surface.

Testing

Always do a test area to determine whether desired results will be achieved.

Application

Apply solution to wet surface and scrub with a nylon bristle brush. Work in small areas. Rinse surface thoroughly with water immediately after brushing. After the entire surface has been treated, let it dry at least 45 minutes before applying a finish.

ALWAYS WEAR RUBBER GLOVES, EYE PROTECTION AND PROTECTIVE CLOTHING. USE WITH ADEQUATE VENTILATION.

To the best of our knowledge, the information contained herein is accurate. Since conditions and methods are beyond our control, no warranty is expressed or implied as for the final result. The user is advised to access the suitability of the product on a test area before application.
